Walkability Audit
How walkable is your neighborhood or studying or working environment?

Take a walk alone, with your family or friends and decide for yourselves.

Everyone benefits from walking. But walking needs to be safe and easy. Take a walk with your family or friends and use this checklist to decide if your neighborhood is a friendly place to walk. Detect the obstacles faced by pedestrians and sent the information to us. We will submit the project results with the relevant recommendations to Tbilisi City Hall.

Getting started:

- First, you’ll need to pick a rout to walk, like the road from home to school, a friend’s house or just somewhere fun to go.
- The second step involves the checklist. Read over the checklist before you go, and as you walk, note the locations of things you would like to change.
- At the end of your walk, give each question a rating. Then add up the numbers to see how you rated your walk overall.
- Then, take photo of the filled out checklist and sent it to the following address: contact@iarepekhit.org or Facebook (იარე ფეხით Iare Pekhit), the summarized project results together with the recommendations will be submitted to Tbilisi City Hall.
